

## Phone adapter for "mobile phone preparation with Bluetooth®"

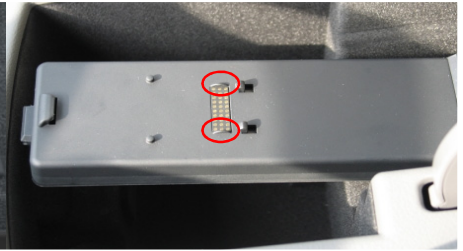

When choosing a phone adapter, please note which generation of the universal mobile phone preparation your car has. You can determine the generation of your mobile phone preparation with reference to the pictures below.

**Generation I**  
to be recognized by the spiral cable

**Generation II**  
to be recognized by the gold contacts on the base plate

**Generation III**  
to be recognized by the semi-round enhancements on the base plate, left and right of the gold contacts

With generation I of the mobile phone preparation, the electrical connection between phone adapter and hands-free kit is established via the cable coil on the adapter. With generation II and III of the mobile phone preparation, there is a gold-plated strip on the adapter base. You can see below for which mobile phones an adapter is available.

**Phone adapter for generation I (with cable coil)**  
**Phone adapter for generation II (without cable coil)**

**Page 2**  
**Page 3**

In vehicles with generation II of the Audi mobile phone preparation Bluetooth®, it is possible to connect the phone via Bluetooth. In cars with generation III AUDI mobile phone preparations, mobile phones are exclusively connected through Bluetooth. More information is available at [www.audi.de/telefon](http://www.audi.de/telefon).

 Q7 MY 2010 ->

**Note: Not all mobile phones support the entire range of functions associated with the universal mobile phone preparation with Bluetooth®**

**Note: Playback of music titles stored on the mobile telephone is not possible via the universal mobile phone preparation**

## Determining the firmware version of your mobile phone\*

Should your mobile phone feature in the table below but, nevertheless, not function with the universal hands-free system, this could be due to the firmware on your phone. More information is available at [www.audi.de/telefon](http://www.audi.de/telefon). You can identify your mobile phone's software by pressing the following buttons on the handset:

### Motorola

Display software version	Select: Menu – Settings – Phone settings – More information – SW version
--------------------------	--

### Nokia

Display software version	*#0000#
--------------------------	---------

### BENQ Siemens

Display software version	*#06# and the left display key
--------------------------	--------------------------------

### Sony Ericsson

Display software version (control sequence using cursor)	right, *, left, left, *, left, *, 2x Confirm
---	--

You can get a firmware update for your phone from the manufacturer or from your network provider.

If you have any further questions about universal mobile phone preparation or about mobile phone adapters, please contact your Audi dealer or visit [www.audi.com/contact](http://www.audi.com/contact).

## Generation I phone adapter

Phone type		Phone adapter part number	Phone adapter part number
<b>BENQ Siemens</b>	CX65	8D0 051 435 CF	
	M65	8D0 051 435 CF	
	CX70	8D0 051 435 CF	
	C75	8D0 051 435 BN	
<b>Nokia</b>	6233	8D0 051 435 DA	
	6280	8D0 051 435 CR	
	6288	8D0 051 435 CR	
	6310 (i)	8D0 051 435 AE	
	6610	8D0 051 435 AK	
	7210	8D0 051 435 AK	
	7250(i)	8D0 051 435 AK	

- 1 All details relate to the recommended mobile-phone firmware version and are subject to correction. Similar functionality is to be expected from newer versions of the same firmware. This cannot, however, be guaranteed. Should a phone with older firmware not function properly with the universal mobile phone preparation, a newer version of the software should normally offer a solution.

1 This function is available only on vehicles manufactured in the production month 11/05 and after. Your Audi dealer can tell you the production month of your vehicle.

2 All details relate to the recommended mobile-phone firmware version and are subject to correction. Similar functionality is to be expected from newer versions of the same firmware. This cannot, however, be guaranteed. Should a phone with older firmware not function properly with the universal mobile phone preparation with Bluetooth interface, a newer version of the software should normally offer a solution. To get additional information please visit the mobile phone database on [www.audi.com](http://www.audi.com)

3 These phone adapters are not available with Audi direct help.

4 The phone adapter cannot be used in vehicles built in 2006 and after. Your Audi dealer can tell you the model year of your vehicle.

5 This adapter can only be used in vehicles with Bluetooth<sup>®</sup> interface. Consult the 'Mobile phones tested with Bluetooth<sup>®</sup>' abstracts to find out whether your vehicle has such an interface and which functions are available.

6 Only numbers saved under 'General' are transferred.

7 To get additional information about vehicle-specific functions, restrictions and tested mobile phones, please visit the mobile phone database on [www.audi.com](http://www.audi.com)

8 This mobile phone has only limited functionality when used with a phone adapter. Please consult the adapter manual for more information.

9 iPhone is a trademark of Apple Inc.

10 Only for Audi A6, A7, A8 from MY 12 in Combination with Audi music interface in the Armrest

11 Not for Audi R8
